

HINTS & TIPS

The garden is being invaded by mutated insects, who are out to cause as much havoc as possible. Only you, with your Neutron pesticide gun, are able to stop them.

The Killapede will come down the screen towards you, and you must destroy it, by shooting each segment. However, as you shoot it, each segment will turn into a mushroom, thereby blocking your shots. Fleas will come down the screen at high speed, dropping mushrooms as they fall, so shoot them quickly, since every mushroom takes several hits to destroy. Other creatures you will have to face include Spiders, Scorpions, Ants and Butterflies.

CONTROLS

Use joystick or redefine keys by pressing ESC.
